

# THE FINDMYSCHOOL.VIC.GOV.AU WEBSITE

---

The Department is launching a new website that visually represents all school zones throughout Victoria.

Parents considering enrolling their children in public schools will, for the first time, be able to use [findmyschool.vic.gov.au](http://findmyschool.vic.gov.au) to identify their designated neighbourhood school from the residential address they provide.

[Findmyschool.vic.gov.au](http://findmyschool.vic.gov.au) will make it easier for parents to find their local neighbourhood school and locate other public school options.

Providing this information online will bring Victoria into alignment with other states that already offer this information online.

## HOW TO USE THE FINDMYSCHOOL.VIC.GOV.AU WEBSITE

The website has been designed for simplicity.

1. Begin by visiting [www.findmyschool.vic.gov.au](http://www.findmyschool.vic.gov.au)
2. You can find a designated neighbourhood school by residential address OR searching using the name of a school.
3. The result will show:
  - here the school is located within the zone and the residential address (if provided)
  - information about the school, its region and a link to the school website.
4. To refine results to the type of school, select 'Primary' or 'Secondary'. There is the option to filter results by year level for secondary schools.

To start a new search, simply replace the address or school name.

The website also includes a link to the School Zones page on the Department's website for more information. This includes the list of frequently asked questions provided at the end of this document.

**NOTE:** If a property is intersected by a school zone line, the child residing at that property has the right to attend the school in either zone.
